1. 5.2 Charging principles

The following modification was made:

In accordance with Paragraph 85/O of the Railway Act, in the case of using rail network services during the performance of national defence tasks by the Hungarian Defense Forces, the network access charges without energy and the financial obligations arising from the Performance Regime (hereinafter: PR obligation) will not be accounted for as follows:

- the settlement of the network access fee without energy and the exemption from the PR obligation include those trains and the railway services ordered together with them and settled as announced in the NS, which trains run exclusively domestically, i.e. both the departing and its destination is a domestic station in Hungary (not including the border point) and,
- loaded, closed set, D category trains and,
- the Railway Undertaking has marked these trains as railway activities related to the national defence tasks to the infrastructure operator by the first working day of the month following the actual month.
