1. Context

DIRECTIVE 2001/14/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 26 February 2001 on the allocation of railway infrastructure capacity and the levying of charges for the use of railway infrastructure and safety certification defined in Article 3 the requirements for the publication of the Network Statement.

More recently, DIRECTIVE 2012/34/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 21 November 2012 establishing a single European railway area reviewed the Network Statement requisites in its Article 27:

- 1. The infrastructure manager shall, after consultation with the interested parties, develop and publish a network statement which shall be obtainable against payment of a fee which shall not exceed the cost of publication of that statement. The network statement shall be published in at least two official languages of the Union. The content of the network statement shall be made available free of charge in electronic format on the web portal of the infrastructure manager and accessible through a common web portal. That web portal shall be set up by the infrastructure managers in the framework of their cooperation in accordance with Articles 37 and 40.*
- 2. The network statement shall set out the nature of the infrastructure which is available to railway undertakings, and contain information setting out the conditions for access to the relevant railway infrastructure. The network statement shall also contain information setting out the conditions for access to service facilities connected to the network of the infrastructure manager and for supply of services in these facilities or indicate a website where such information is made available free of charge in electronic format. The content of the network statement is laid down in Annex IV of the Directive.*
- 3. The network statement shall be kept up to date and amended as necessary.*
- 4. The network statement shall be published no less than four months in advance of the deadline for requests for infrastructure capacity.*

The Network Statement WG (NS WG) was established in 2001 under the UIC umbrella and was fully transferred to RNE in 2004. The main scope of this WG has been the development of the Network Statement specification and making all efforts to guarantee its implementation on national level.

2. Common Structure Objective

The objective of this Common Structure (CS) is to offer guidelines for the expected content, organisation and other information useful for the production of the Network Statement (NS).

The aim is for Applicants to get access to similar documents along different countries, finding the same information at the same place in each one.

The key clients of this CS are the Infrastructure Managers and Allocation Bodies who are responsible for producing the NS. This document is meant to facilitate the production process of the NS and also to allow the adoption of a common structure throughout Europe that leads to comparable and structured information. More recently with the advent of the Rail Freight Corridors and the publication of the Corridor Information Documents – which make direct references to each national NS – this has become even more evident.

This specification is regularly updated each year in order to better adjust to new legal requirements, new market needs and results of the RNE NS and CID WG improvement assessments.

3. Network Statement Common Structure and Implementation Guide

The most recent NS CS is presented in the template below, comprehending 6 main sections that are detailed up to the fourth level.

The template also contains implementation guide that suggests for each chapter level the recommended content.

The last column includes control information, identifying the changes that have been implemented throughout the years.

If a chapter (up to the 4th level) is not applicable on an IM's network, it shall be clearly stated in its NS in the chapter concerned (e.g. 5.3.1.7. Maritime and inland port facilities: *This service facility is not available on this network.*). In this way, the provision of information is more transparent from the applicants' point of view and the NS CS can be promoted to a full extent.

4. Publication and updating process

As defined in Point 4 of Article 27 of Directive 2012/34, the NS shall be published no less than four months in advance of the deadline for requests for infrastructure capacity.

Ideally this date corresponds to 12 months prior to the annual working timetable entry in force - 2nd Saturday of December (X-12).

As defined in Point 3 of Article 27 of Directive 2012/34, the NS shall be kept up to date and amended as necessary.

5. Connection with the Corridor Information Documents

The RNE Corridor Information Document (CID) Common Structure is strongly related with the NSs, for example, it stipulates that CID Book 2 should replicate the structure of the NS. It is therefore very important that this NS CS and English language availability are respected by all IMs, so that the CID Book 2 can be efficiently produced.

All updates in this NS CS will be properly communicated to the RNE CID Common Structure.

6. Network Statement Languages

As defined in Point 1 of Article 27 of Directive 2012/34, the network statement shall be published in at least two official languages of the Union.

The RNE General Assembly decided on 5 May 2010 in Brussels that the NS shall be published in English. This shall be done regardless of the number of languages in which a NS is published in a given country. To make it possible to publish the complete CID at X-11, an English version of the NS shall be published by X-12, i.e. simultaneously with the NS in the national language, which is in line with the above Directive.

RNE has produced an English-language *Glossary of terms related to network statements* (available on the RNE website under <http://www.rne.eu/organisation/network-statements/>) that can be used by

all information providers who are under the obligation to deliver English texts. Furthermore, it contributes to a harmonised wording of the network statements of the various IMs/ABs. This glossary is also updated every year (in the fourth quarter) according to the procedure described in the *Revision process and reference library for Glossary of Network Statement Working Group*, included in Appendix C.4. of RNE's Internal Regulations and Operational Guidelines (IROGs).

7. Service Facility Information

As defined in Point 2 of Article 27 and Point 6 of Annex IV from Directive 2012/34, operators of service facilities that are not controlled by the infrastructure manager shall supply information on charges for gaining access to the facility and for the provision of services, and information on technical access conditions for inclusion in the network statement or shall indicate a website where such information is made available free of charge in electronic format.

If the preferred option is the cross-link, and the Service Facilities have not yet published the required information on their website, then the IM/AB can suggest a template for it.

This RNE NS CS presents a harmonised template in Annex 1 (separate file) that is meant to comply with the EU legislation. Its structure respects the logic of the Network Statements, but in a much simplified manner, adjusted to the Service Facilities' context.

8. RNE Network Statement Template

Last update: 5 March 2019, Bratislava

Text in italics indicates a reference to the relevant section of Directive 2012/34/EU or to other European Union's directives/regulations.

Number of section/ chapter	Heading	Implementation guide	Remarks (version control)
	<p>Main Sections The following headings have been agreed for the main sections of the Network Statement.</p>	<p>Content Each IM is responsible for providing information regarding its network. Information regarding neighbouring networks (including cross-border information) is optional. The NS should include all the points mentioned in Annex IV of Directive 2012/34/EU, clearly stating whether the information is not provided because not applicable (e.g. information on specific services not presented since such services are non-provided by the IM; information on discounts and mark-ups on charges not presented since they actually do not exist).</p> <p>The network statement shall be published in at least two official languages of the Union. The RNE General Assembly decided on 5 May 2010 in Brussels that the NS shall be published in English regardless of the number of languages in which a NS is published in a given country. To make it possible to publish the complete CID</p>	

Number of section/ chapter	Heading	Implementation guide	Remarks (version control)
		at X-11, an English version of the NS shall be published by X-12.	
	VERSION CONTROL	All previous versions of this annual document should be identified, together with a short description of the changes.

	GLOSSARY	<p>Provide a glossary of terms used in the NS (a reference to an appendix is suggested) or use a cross-reference to the relevant RNE web page: http://www.rne.eu/organisation/network-statements/</p> <p>RNE has created an easy-to-use, English-language Glossary of terms related to Network Statements. The definitions in this Glossary are written in a clear language using as little technical or legal jargon as possible. They provide practical guidance both to IMs/ABs and their customers.</p> <p>Please note the Legal Disclaimer, which stresses that the available material is for information purposes only and that definitions are not legally-binding. By using this Glossary, you agree to the terms of the Legal Disclaimer.</p>	

SECTION 1 – GENERAL INFORMATION			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
1	GENERAL INFORMATION		
1.1	Introduction	<p>Give a brief presentation of the IM and state why the IM produces the NS.</p> <p>A diagram showing the organisation of the railway sector in the IM's country can be included.</p>	
1.2	Objective	<p><i>Directive 2012/34/EU Article 3 (26) and Article 27</i></p> <p>Give a brief description of the purpose of the NS.</p> <p>(e.g. The NS is designed to supply RUs and/or other applicants with the essential information needed to gain access to, and to use the rail infrastructure managed by the IM.)</p> <p>Refer to national legislation transposing the Directive into national law.</p>	
1.3	Legal Framework	<p>List the main legislation and regulations to be considered by applicants, including:</p> <ul style="list-style-type: none"> ▪ International legislation (optional) ▪ National legislation ▪ IM's internal regulations <p>Other applicable regulations (e.g. imposed by the national rail Regulatory Body).</p>	
1.4	Legal Status		
1.4.1	General Remarks	Describe the legal status of the NS in national legislation.	
1.4.2	Liability	<p>State the extent of the liability of the IM for information contained in the NS and include any legal disclaimers.</p> <p>In the cases where the IM is not responsible for the management of certain service facilities, the related information contained in this network statement is not binding. Make reference to the NS affected chapters.</p>	
1.4.3	Appeals Procedure	<p><i>Directive 2012/34/EU Article 46 (6) 56 (1a –b)</i></p> <p>Describe the procedure for applicants to appeal against any action or decision taken by the IM, including the content of the NS.</p>	

SECTION 1 – GENERAL INFORMATION			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
1.5	Structure of NS	<p>Give a brief description of the Common Structure for the NS and refer to the latest version number of the Implementation Guide.</p> <p>Include the following statement: “<i>This NS applies the RNE NS Common Structure so that all Applicants can access similar documents in different countries, finding the same information at the same place in each one.</i>”</p>	
1.6	Validity and Updating Process	<i>Directive 2012/34/EU 27 (3-4)</i>	
1.6.1	Validity Period	<p>State the dates of the period of validity of the NS and the relevant annual timetable’s start and end dates.</p> <p>Consider the proposed text included in the specific “Recommended Texts” table below.</p>	
1.6.2	Updating Process	Describe how the NS is updated, with special reference to the situations where consultation with the interested parties is mandatory.	
1.7	Publishing	<p><i>Directive 2012/34/EU Article 27 (1)</i></p> <p>List the available formats of the NS (e.g. printed document, web document, CD-ROM), how they can be obtained and their prices.</p> <p>An English version of the NS should be made available. State which language version will prevail in case of inconsistencies.</p> <p>Consider the proposed text included in the specific “Recommended Texts” table below.</p>	
1.8	Contacts	<p>List the contacts which will provide more information on domestic and international traffic (job functions rather than named individuals) and indicate their respective fields of information.</p> <p>The list should include contacts within the IM, including the (RailNetEurope) OSS, and contacts in other relevant national and international organizations, namely the connected networks (the RNE website provides the contact information of national OSSs and links to the English version of all national Network Statements, if available).</p> <p>http://www.rne.eu/organisation/oss-c-oss/ http://www.rne.eu/organisation/network-statements/</p>	

SECTION 1 – GENERAL INFORMATION			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
1.9	Rail Freight Corridors	<p>Provide information on the RFCs that are integrated in the IM/AB network, namely institutional information regarding the RFC, including the website information and relevant RFC contacts; maps or other descriptions with the corridor's identification; connected Corridor Information Document (CID) content; chapters inside the NS where RFC applicable information will be found.</p> <p>Consider the proposed text included in the specific "Recommended Texts" table below.</p> <p>Also consider the Corridor Information Document Specification produced by RNE in support of the implementation of Regulation 913/2010 Article 18.</p>	
1.10	RailNetEurope – international cooperation between Infrastructure Managers	<p><i>Directive 2012/34/EU Article 37 (1 and 2) Article 40 and Article 44 (4)</i> EITHER use the mandatory text included in the specific "Recommended Texts" table below</p> <p>('Cut and paste' from the RNE website)</p> <p>OR use a cross-reference to the RNE website: http://www.rne.eu/organisation/rne-approach-structure/</p>	
1.10.1	One Stop Shop (OSS)	<p><i>Directive 2012/34/EU Article 44 (4)</i></p> <p>FIRST: Give the contact information of the national OSS (the OSS within your company) as indicated in 1.8 above. SECOND: EITHER use the mandatory text included in the specific "Recommended Texts" table below (this text has been agreed by the OSSs themselves)</p> <p>OR use a cross-reference to the RNE OSS webpage: http://www.rne.eu/organisation/oss-c-oss/</p>	
1.10.2	RNE Tools	<p>EITHER use the mandatory text included in the specific "Recommended Texts" table below: ('Cut and paste' from the RNE web page)</p> <p>Or use a cross-reference to the relevant RNE web pages: http://pcs.rne.eu/ http://cis.rne.eu/ http://tis.rne.eu/</p>	

SECTION 1 – GENERAL INFORMATION Recommended Texts	
Number of section / chapter	Recommended text
1.1 Updated in 2018	<p>"IM Company" is a state / limited liability / joint stock company under public law. "IM Company" wishes to contribute to sustainable mobility within the European rail network in order to boost economic and social development in "IM's country".</p> <p>As the "IM's country's" rail infrastructure manager (IM), "IM company" offers its customers (railway undertakings (RUs) and non-RU applicants), a competitive and qualitative railway infrastructure, adapted to their needs. In addition to the daily management, maintenance and further development of this infrastructure, "IM company" is also responsible for the control and the safety of all train traffic.</p> <p>The national law (please specify it) gives the IM the task of drafting and publishing the network statement (NS).</p> <p>The position of "IM company" in the "IM's country" railway sector is shown by the organization chart below:</p> <p>Optional: A diagram showing the organization of the railway sector in the "IM's country".</p>
1.2	<p>The Network Statement's objective is to inform Applicants, the authorities and other interested parties about "IM company" infrastructure, and the terms and conditions for allocation of capacity and use.</p> <p>The Network Statement presents the services that the "IM company" offers, with information regarding where they are accessible, how the allocation of services functions, which charges apply, and the conditions that apply for gaining access to the services.</p> <p>The Network Statement is produced in accordance with Directive 2012/34/EU and "national law" (please specify it).</p>
1.5 Updated in 2018	<p>The structure of this NS follows the "Network Statement Common Structure", adopted by European infrastructure managers belonging to RailNetEurope (see 1.10), on the basis of the applicable legal framework. The document is revised annually and the most recent version is available on the RNE website (http://www.rne.eu/network-statement). The goal of this Common Structure is that all applicants and interested parties can find the same information at the same place in the NS of other countries.</p> <p>The NS is thus structured in 6 sections constituting the main document and appendixes giving further details:</p> <ul style="list-style-type: none"> - Section 1 gives general information about the NS and contacts - Section 2 defines the legal requirements and access proceedings to the railway network - Section 3 describes the main technical and functional characteristics of the railway network - Section 4 sets the procedure for the allocation of the train paths - Section 5 lists the services provided by (name of the IM) and other service facilities managers - Section 6 refers to the charging of the provided services as well as incentive schemes.
1.6.1	<p>The NS applies to capacity requests and execution of timetabled transport operations (/traffic movements) during the XX timetable starting on Sunday XX December XXXX 00:00 and ending on Saturday XX December XXXX 24:00. The present NS comes into force on XX.</p>
1.7	<p>The NS is drawn in (language) and published in (languages) and English on the "IM's" website (link) where it is available free of charge in electronic format. In the event of inconsistencies or interpretation difficulties between versions, the X (language) version prevails/takes precedence/alone is authoritative.</p> <p>Optional: Publication of updated versions is notified by email to the interested parties.</p>

SECTION 1 – GENERAL INFORMATION Recommended Texts	
Number of section / chapter	Recommended text
1.9 Updated in 2018	<p>The Regulation (EU) No. 913/2010 concerning a European rail network for competitive freight became effective on 9 November 2010. This Regulation required Member States to establish international market-oriented Rail Freight Corridors (RFCs) in order to meet the following goals:</p> <ul style="list-style-type: none"> - strengthening co-operation between IMs on key aspects such as the allocation of paths, deployment of interoperable systems and infrastructure development, - finding the right balance between freight and passenger traffic along the RFCs, giving adequate capacity for freight in line with market needs and ensuring that common punctuality targets for freight trains are met, - promoting intermodality between rail and other transport modes by integrating terminals into the corridor management process. <p>[IM name] participants in RFC X, RFC Y, etc....</p> <p>Link to RFC X, RFC Y, etc. website:</p>
1.10 Updated in 2019	<p>[IM name] is a member of RailNetEurope (RNE), which is an umbrella organisation of European railway Infrastructure Managers and Allocation Bodies (IMs/ABs). RNE facilitates international railway business by developing harmonised international business processes in the form of templates, handbooks, and guidelines, as well as IT tools (see chapter 10.1.2).</p> <p>You can find more information about RNE on http://www.rne.eu/organisation/rne-approach-structure/</p>
1.10.1 Updated in 2018	<p>A network of One-Stop Shops (OSS) represents the IMs in international traffic. They constitute a single point of contact for the entire international route of a rail service, from the initial questions related to network access to international path requests and performance review after a train run. [IM name] also operates an OSS.</p> <p>A list of OSS contact persons in Europe is available at: http://www.rne.eu/organisation/oss-c-oss/</p>
1.10.2 Updated in 2019	<p>PCS is an international path request coordination system for Railway Undertakings (RUs) and other Applicants, Infrastructure Managers (IMs,) Allocation Bodies (ABs) and Rail Freight Corridors (RFCs). The internet-based application optimises international path coordination by ensuring that path requests and offers are harmonised by all involved parties. Furthermore, PCS is the only tool for publishing the binding PaP and RC offer and for managing international path requests on RFCs.</p> <p>Access to PCS is free of charge. A user account can be requested via the RNE PCS Support: support.pcs@rne.eu.</p> <p>More information can be found on http://pcs.rne.eu.</p> <p>The CIS is an infrastructure charging information system for Applicants provided by IMs and ABs. The web-based application provides fast information on indicative charges related to the use of European rail infrastructure and estimates the price for the use of international train paths. It is an umbrella application for the various national rail infrastructure charging systems.</p> <p>Access to CIS is free of charge without user registration.</p> <p>More information can be found on http://cis.rne.eu or can be requested via the RNE CIS Support: support.cis@rne.eu.</p>

SECTION 1 – GENERAL INFORMATION Recommended Texts	
Number of section / chapter	Recommended text
	<p>TIS is a web-based application that supports international train management by delivering real-time train data concerning international trains. The relevant data are obtained directly from [IM name]'s systems and all the information from the different IMs is combined into one train run from departure or origin to final destination. In this manner, a train can be monitored from start to end across borders. RUs and terminal operators may also be granted access to TIS and they can join the RNE TIS Advisory Board. All members of this Board grant all other members full access to TIS data if they are involved in the same train run. Without it, mutual agreements have to be signed between RUs and between RUs and terminal operators.</p> <p>Access to TIS is free of charge. A user account can be requested via the RNE TIS Support: support.tis@rne.eu.</p> <p>More information can be found on http://tis.rne.eu.</p>

SECTION 2 – ACCESS CONDITIONS			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
2	ACCESS CONDITIONS		
2.1	Introduction	Consider the proposed text included in the specific “Recommended Texts” table below.	
2.2	General Access Requirements	Describe or refer to the main legal regulations set by national and international authorities. This information should cover domestic as well as international traffic.	
2.2.1	Conditions for applying for capacity	<i>Directive 2012/34/EU Article 41</i> State the prerequisites for being accepted as an applicant (an entity or person that wants to apply for a train path). For example, state whether or not an entity applying for a train path needs to be a RU at the time it makes its path application. State whether a third party (e.g. OSS) may apply for train paths on behalf of a RU. A clear statement that the allocated capacity is non-transferable and non-tradable should be included in the NS. Mention RFC applicable conditions and its relation with NS Section 4.	
2.2.2	Conditions for access to the railway infrastructure	<i>Directive 2012/34/EU Article 10 and Annex IV 3.</i> State which kinds of RUs (domestic and/or foreign) or other organisations are permitted to perform train operations (freight and/or passenger).	
2.2.3	Licences	<i>Directive 2012/34/EU Article 25 and Annex IV 4.</i> Name the body responsible for issuing train operating licences. Give the contact name and address or refer to Section 1.8. If the IM issues the licences itself, either describe or refer to the licensing process.	
2.2.4	Safety Certificate	<i>Directive 2012/34/EU Annex IV 4.</i> Name the body responsible for issuing safety certificates. Give the contact name and address, or refer to Section 1.8.	

SECTION 2 – ACCESS CONDITIONS			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
		If the IM issues safety certificates itself, either describe or refer to the certification process.	
2.2.5	Cover of liabilities	<p><i>Directive 2012/34/EU Article 22</i></p> <p>Describe or refer to the relevant national legislation and state any mandatory levels of insurance. If other means of risk coverage than insurance are permitted, state this (e.g. state guarantee).</p>	
2.3	General Business/Commercial Conditions		
2.3.1	Contracts with RUs	<p><i>Directive 2012/34/EU Article 28</i></p> <p>State which contracts are necessary for the use of infrastructure capacity, for example:</p> <ul style="list-style-type: none"> • track access (i.e. regarding the right of using the railway line for performing train operations) • access to Passenger Terminals, Freight Terminals, Train Depots, etc. <p>State whether an access contract is required before applying for a train path and/or before actual operation, and if separate contracts are required for station / depot access and/or any other services.</p> <p>State which contracts are required to deliver the minimum access package as set out in <i>Directive 2012/34/EU</i>. Refer to Section 5 for details of additional and ancillary service contracts.</p> <p>State if any independent approval of access contracts is needed (e.g. by Regulatory Body or by Government).</p> <p>State if a standard form of access contract exists and whether its use is compulsory.</p> <p>The contract templates should be included in an Annex to the Network Statement and/or published on the IM's website.</p>	

SECTION 2 – ACCESS CONDITIONS			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
2.3.2	Contracts with non-RU applicants	<p><i>Directive 2012/34/EU Article 38 (2 and 3) and Article 41 (1)</i></p> <p>State which contracts are necessary before applicants that are not RUs can apply for a train path.</p> <p>State if a standard form of contract exists and whether its use is compulsory. If no contract is necessary, please indicate it as well.</p> <p>The contract templates should be included in an Annex to the Network Statement and/or published on the IM's website.</p>	
2.3.3	Framework Agreement	<p><i>Directive 2012/34/EU Article 42 and Annex IV 7.</i></p> <p>Give a brief description of the role of a Framework Agreement and refer to contracts that are regarded as Framework Agreements (e.g. Track Access Agreement, Station Access Agreement, etc.).</p> <p>State whether the IM is permitted to enter into bi-lateral agreements with RUs to develop infrastructure enhancements and refer to any standard regulations, or state which other body is responsible for infrastructure enhancement.</p> <p>State if there is a need for a third party agreement to a framework agreement (e.g. by a regulator).</p> <p>Include a model of a framework agreement, either by inserting it in Annex or by referring to a web link.</p>	
2.4	Operational Rules	<p>(i.e. rules to be followed by train crew in current train and shunting operations).</p> <p>State which organisation is responsible for publication of the rules (e.g. the IM, the Regulatory Body, the Ministry of Transport, etc.). Give contact name and address, or refer to Section 1.8.</p> <p>Both national and local operational rules and instructions should be covered.</p> <p>The operational languages should be stated, in compliance with the Operations TSI.</p> <p>Mention the specific rules applicable for the served Rail Freight Corridors.</p>	

SECTION 2 – ACCESS CONDITIONS			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
2.5	Exceptional Transports	<p>(e.g. test trains, out-of-gauge loads, heavy axle load vehicles).</p> <p>Refer to UIC leaflet 502 Annex 1 (Article 1.3) extract from the RIV for definition of 'Exceptional Transports'. State whether the IM uses the UIC definition or not.</p> <p>State which body is in charge of the rules for exceptional transports and give the contact name and address, or refer to Section 1.8.</p> <p>Refer to Section 4.7 for the capacity allocation process and Section 5 for details of other services provided by the IM.</p>	
2.6	Dangerous Goods	<p>Refer to RID for definition of 'Dangerous Goods'.</p> <p>State whether or not the IM uses the RID regulations and if there are any exceptions.</p> <p>Refer to any national regulations for dangerous goods and give the contact name and address (or refer to Section 1.8) for applications to move dangerous goods.</p> <p>Refer to Section 4.7 for the capacity allocation process and Section 5 for details of other services provided by the IM.</p> <p>Consider the proposed text included in the specific "Recommended Texts" table below.</p>	
2.7	Rolling Stock Acceptance Process Guidelines	<p><i>Directive 2004/49/EC Article 10</i></p> <p>State which organisations are in charge of the process and give the contact names and addresses, or refer to Section 1.8.</p> <p>Describe the main stages in the process, the required information, the timetable for completion of the process and any relevant documentation.</p> <p>If the IM is not in charge of the Rolling Stock Acceptance Process, then just provide the possible amount of information.</p>	
2.8	Staff Acceptance Process	<p><i>Directive 2004/49/EC Article 10</i></p> <p>This provision covers operations staff, e.g. drivers, conductors, shunters.</p> <p>State which organisations are in charge of the process and give the contact names and addresses, or refer to Section 1.8.</p>	

SECTION 2 – ACCESS CONDITIONS			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
		<p>Describe the main stages in the process, the required information, the timetable for completion of the process and any relevant documentation.</p> <p>If the IM is not in charge of the Staff Acceptance Process, then just provide the possible amount of information.</p>	

SECTION 2 – ACCESS CONDITIONS	
Recommended Texts	
Number of section / chapter	Recommended text
2.1	<p>Section 2 of this Network Statement describes the terms and conditions related access to the railway infrastructure managed by 'IM'.</p> <p>These terms and conditions also apply on the part of the freight corridors which pass through the railway infrastructure managed by 'IM'.</p>
2.6	<p>"Dangerous goods" means materials and objects of which the carriage is prohibited under the RID (Regulation concerning the International Carriage of Dangerous Goods by Rail) or authorised only under certain conditions.</p> <p>The transport of dangerous goods by rail is legislated by the RID, and the following national legislation:</p> <ul style="list-style-type: none"> • (...); (...); (...); <p>For details on the process for allocating capacities for the transport of dangerous goods, see chapter 4.7 and for the relevant services, see section 5.</p>

SECTION 3 – INFRASTRUCTURE			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
3	INFRASTRUCTURE	<p>All the information [in Section 3] is provided by the individual IM according to availability and relevance of the data. For example, if an IM has no tunnels on its network, that fact will be stated in Section 3.4.</p> <p>Where relevant, maps or lists should be produced, or reference should be made to documents containing the required information, ideally by means of GIS allowing the customers (applicants) to quickly access infrastructure information on the specific line.</p>	
3.1	Introduction	<p>State the general validity of the information provided, especially referring to possible changes of infrastructure characteristics or constraints.</p> <p><i>Directive 2012/34/EU Article 27 (2) and Annex IV 6.</i></p> <p>The network statement shall also contain information setting out the conditions for access to service facilities connected to the network of the infrastructure manager and for supply of services in these facilities or indicate a website where such information is made available free of charge in electronic format.</p> <p><i>Commission Implementing Decision No 2014/880/EU of 26 November 2014 on the common specifications of the register of railway infrastructure</i></p> <p>State how the information on the Network Statement is consistent with the rail infrastructure register, including how the register can be accessed.</p>	
3.2	Extent of Network		
3.2.1	Limits	<i>Directive 2012/34/EU Article 27 (2) and Annex IV1.</i>	
3.2.2	Connected Railway Networks	<p>State the geographic limits of the IM's infrastructure and indicate any lines not available for normal railway traffic operations.</p> <p>Refer to neighbouring IMs, including other national networks, and list all international border crossings.</p> <p>Refer to Chapter 3.6 for details of private sidings and private freight terminals.</p>	

SECTION 3 – INFRASTRUCTURE			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
3.3	Network Description	List available documents which provide detailed infrastructure data and give contact details for further information.	
3.3.1	Geographic Identification		
3.3.1.1	Track Typologies	Indicate the length of single track / double track / multiple track.	
3.3.1.2	Track Gauges	State the track gauge(s) (EN 15273:2013). Even if there is only one gauge, its value should be stated. Where the IM has more than one gauge, indicate the length of track of each gauge.	
3.3.1.3	Stations and Nodes	List the stations and nodes and describe their main characteristics. Key characteristics can include distances between nodes and the length of station tracks. As a minimum, the permitted train length for each station may be stated.	
3.3.2	Capabilities		
3.3.2.1	Loading Gauge	Indicate the loading gauge applicable to each route section. Refer to EN 15273 or to Combined Traffic Codes.	
3.3.2.2.	Weight Limits	Indicate the maximum axle load and any other weight limits applicable to each route section. Refer to UIC leaflet 700-0. Axle and meter loads should be included.	
3.3.2.3	Line Gradients	Indicate the maximum or critical gradient on each route section.	
3.3.2.4	Line Speeds	Indicate the maximum permitted speed per line for each route section.	
3.3.2.5	Maximum train lengths	Indicate the maximum train length allowed on each line or section (excluding Exceptional Consignments).	
3.3.2.6	Power supply	Indicate the extent of the network that is electrified and describe the electrification system, including the voltage and frequency used. Optionally,	

SECTION 3 – INFRASTRUCTURE			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
		additional information such as contact wire height, contact pressure, etc. can be supplied.	
3.3.3	Traffic Control and Communication Systems	Give a brief technical description of the traffic control system, including signalling, regulation, dispatching and communication, and provision of information on train movement.	
3.3.3.1	Signalling Systems	Give a brief technical description of the signalling systems.	
3.3.3.2	Traffic Control Systems	Give a brief technical description of the traffic control systems (may be merged with signalling systems).	
3.3.3.3	Communication Systems	Give a brief technical description of the train radio communication systems.	
3.3.3.4	Train Control Systems	Give a brief technical description of the automatic train control systems. State whether it is mandatory for trains operating on lines with train control systems to be equipped with equivalent systems.	
3.4	Traffic Restrictions		
3.4.1	Specialised Infrastructure	<i>Directive 2012/34/EU Article 49 and Annex IV 1.</i> Indicate the extent of any specialised infrastructure and describe the traffic restrictions that apply.	
3.4.2	Environmental Restrictions	Indicate if there are any limits on, for example, noise levels or other environmental restrictions. If the limits are allocated to certain line sections or hours, state this.	
3.4.3	Dangerous Goods	Indicate if there are any line sections where dangerous goods are not permitted, or where permission is limited (to certain times of the day and/or to certain classes of dangerous goods).	
3.4.4	Tunnel Restrictions	Indicate if there are any tunnel restrictions, for example restrictions on the use of diesel traction.	
3.4.5	Bridge Restrictions	Indicate if there are any bridge restrictions, for example closure in high-wind conditions, specific opening hours, etc.	

SECTION 3 – INFRASTRUCTURE			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
3.4.6	Other	Indicate if there is any other type of restrictions.	
3.5	Availability of the infrastructure	<p><i>Commission Delegated Decision (EU) 2017/2075</i></p> <p>Provide information on traffic restrictions, for example imposed by the IM due to its own infrastructure management needs. These can include all kinds of temporary capacity restrictions , such as track works, possessions and other capacity limitations, as well as restrictions on route opening hours.</p> <p>Refer to Chapter 4.5 of this document.</p>	
3.6	Service Facilities	<p><i>Directive 2012/34/EU Article 27 (2) and Annex IV 6.</i></p> <p>The network statement shall also contain information setting out the conditions for access to service facilities connected to the network of the infrastructure manager and for supply of services in these facilities or indicate a website where such information is made available free of charge in electronic format.</p> <p>Consult chapter 7 of this NS specification for consideration of a harmonised template for the Service Facility information description.</p> <p>List the key Service Facilities that the IM offers to RUs.</p> <p>Service Facilities not owned by the IM can also be listed separately.</p>	
3.6.1	Passenger stations	<p>This chapter covers all stations where passengers embark / disembark regardless of their size or importance.</p> <p>List platform lengths and heights and refer to Section 5 for any services offered by the IM.</p> <p>A description of other passenger facilities can be included.</p> <p>To give the RUs a convenient overview of certain characteristics of the passenger terminals, the information can be structured as lists sorted (railway) line by (railway) line and station by station.</p>	
3.6.2.	Freight terminals	<p><i>Directive 2012/34/EU Article 27 (2) and Annex IV 6.</i></p> <p>The network statement shall also contain information setting out the conditions for access to</p>	

SECTION 3 – INFRASTRUCTURE			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
		<p>service facilities connected to the network of the infrastructure manager and for supply of services in these facilities or indicate a website where such information is made available free of charge in electronic format.</p> <p>Consult chapter 7 of this NS specification for consideration of a harmonised template for the Service Facility information description.</p> <p>List the location of freight terminals. Describe each terminal's type (intermodal or conventional, harbour etc.).</p> <p>Purpose-built terminals, for example for timber/lumber, should also be listed and described here. The information can include special terminal equipment, such as side ramps and/or end ramps.</p> <p>State which body is in charge of (track) capacity allocation within the freight terminal. If the national IM is in charge, state if terminal capacity shall be requested as a part of the capacity allocation process (see Section 4) or separately.</p> <p>If the terminal is suitable for the interchange of goods between other (more) modes than rail-road and rail-rail this should be stated (for example rail-road-sea/river-air).</p> <p>Please also describe the maximum train length that can be accommodated in each terminal without splitting the train, and the total track length.</p> <p>The information can include the contact point to which RUs or other interested parties shall turn in order to obtain further information concerning each terminal. Information concerning services provided in each terminal can also be mentioned here.</p>	
3.6.3	Marshalling yards and train formation facilities, including shunting facilities	List the location of train-formation yards and the maximum length of trains that can be formed in each yard. The information can include the contact point to which RUs or other interested parties shall turn in order to obtain further information concerning each yard.	
3.6.4	Storage sidings	List the location of storage sidings and the maximum length of trains that can be formed in each yard. The information can include the contact point to which RUs or other interested parties shall turn in order to obtain further information concerning each storage siding.	

SECTION 3 – INFRASTRUCTURE			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
3.6.5	Maintenance facilities	(If the IM is the service provider, refer to section 5, otherwise inclusion is optional). Optional information should include the location of each facility in question and a contact point.	
3.6.6	Other technical facilities, including cleaning and washing facilities	<p>List the location, type and opening time of the technical facility and describe its purposes.</p> <p>Facilities such as wheel damage detectors, red box (hot box) detectors, wagon weighbridges, loading gauges and so on can be described here.</p> <p>The information can include the contact point to which RUs or other interested parties shall turn in order to obtain further information concerning the facilities.</p> <p>If the facility in question can detect and/or gather data concerning the RU's train, information on how the RU can obtain access to this data should be included.</p>	
3.6.7	Maritime and inland port facilities	List the location and type of maritime and inland port facility and describe its purposes.	
3.6.8	Relief facilities	List the location and type of relief facility and describe its purposes.	
3.6.9	Refuelling facilities	List the location and opening time of refuelling facilities and the type(s) of fuel that can be provided in each place. The information can include the contact point to which RUs or other interested parties shall turn in order to obtain further information.	
3.6.10-3.6.99	Other facilities	If the IM provides services or facilities other than those listed in the previous chapters (3.8.1-3.8.5), these services or facilities should be listed here under separate sub-numbers.	
3.7	Service Facilities not managed by 'IM name'	<p>Provide web address at the IM website where the SF List is published.</p> <p>Describe the process for which the SF need to register by supplying the basic information needed to produce the SF List.</p> <p>Present in an Appendix the RNE Common Template for SF to support the production of the SF documents, including the options available for its publication.</p>	

SECTION 3 – INFRASTRUCTURE			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
3.8	Infrastructure Development	<p><i>Directive 2012/34/EU Article 8 (3)</i></p> <p>Give any available information on the main infrastructure development projects, including timescales, the nature of the works and their impact on operational characteristics, both during the construction period and after completion.</p> <p>The information given in this chapter is not limited to the validity period of this Network Statement.</p>	

SECTION 3 – INFRASTRUCTURE	
Recommended Texts	
Number of section / chapter	Recommended text
3.1	This chapter contains a description of the functional and technical characteristics of the railway infrastructure managed by "IM". It is formulated for the purpose of meeting existing and new Railway Undertakings' information needs in connection with their planning of railway traffic. Reference is made to (e.g. IMs document, Technical Rules, "Supplementary Information and regulations", maps).

SECTION 4 – CAPACITY ALLOCATION			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
4	CAPACITY ALLOCATION	<p><i>Directive 2012/34/EU Chapter IV, Section 3 and Annex IV 3.</i></p> <p>The information [in section 4] should cover capacity allocation both for domestic and international traffic.</p>	
4.1	Introduction		
4.2	Description of Process	<p><i>Directive 2012/34/EU Article (39) and Annex IV 3. a)</i></p> <p>Describe:</p> <ul style="list-style-type: none"> - how to apply (which forms to be used) - how capacity allocation is decided - the bodies involved and state their responsibilities <p>Take into account the</p> <ul style="list-style-type: none"> - RNE Process Handbook for timetabling, - - RNE Guidelines concerning non-RU Applicants <p>Make a reference to the Corridor capacity allocation processes.</p>	
4.3	Schedule for Path Requests and Allocation Process	<i>Directive 2012/34/EU Article 43 and Annex IV 3. c) and Annex VII</i>	
4.3.1	Schedule for Working Timetable	List the deadlines in the process or refer to separate production schedule.	
4.3.2	Schedule for Train Path Requests Outside the Timetabling Process (Ad-Hoc Requests)	<i>Directive 2012/34/EU Article 48</i> List the deadlines in the process or refer to separate production schedule.	
4.4	Allocation Process		
4.4.1	Coordination Process	<p><i>Directive 2012/34/EU Article 46 and Annex IV. 3. d)</i></p> <p>Describe the coordination process including details of activities performed by IMs and applicants.</p>	

SECTION 4 – CAPACITY ALLOCATION			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
4.4.2	Dispute Resolution Process	<p><i>Directive 2012/34/EU Article 46 (3 and 6) and Annex IV. 3. d)</i></p> <p>Give the contact names and addresses of bodies involved.</p> <p>Describe in detail the information the applicants must give to the IM in case of a dispute.</p> <p>State any deadlines in the dispute resolution process.</p> <p>State whether or not the dispute resolution process can delay the capacity allocation process.</p> <p>State how the following information, regarding the consultation stage, is disclosed:</p> <p>(a) train paths requested by all other applicants on the same routes;</p> <p>(b) train paths allocated on a preliminary basis to all other applicants on the same routes;</p> <p>(c) alternative train paths proposed on the relevant routes in accordance with paragraph 2;</p> <p>(d) full details of the criteria being used in the capacity-allocation process.</p>	
4.4.3	Congested Infrastructure: Definition, Priority Criteria and Process	<p><i>Directive 2012/34/EU Article 47 and Annex IV 3. e)</i></p> <p>Quote or refer to the national legislation defining when an area (line and/or station) is to be considered as congested.</p> <p>Indicate (by maps or names of lines and locations) which areas are or are likely to become congested during the period of validity of the NS.</p> <p>Quote or refer to the priority criteria to be used when an area is declared congested.</p> <p>Where capacity is congested, the NS should clearly indicate the IM's procedure for undertaking Capacity Analysis and preparing its Capacity Enhancement Plan.</p>	
4.4.4	Impact of Framework Agreements	<p>Describe how a Framework Agreement affects capacity allocation, e.g. whether it confers a particular level of priority on path requests. Refer to a separate list of Framework Agreements if one exists.</p>	

SECTION 4 – CAPACITY ALLOCATION			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
4.5	Allocation of Capacity for Maintenance, Renewal and Enhancements	<p><i>Directive 2012/34/EU Article 53 and Annex IV (3.c)</i></p> <p>Refer to documents setting out the capacity allocated to maintenance, renewals and enhancements in the current timetable and any future timetables for which the process is complete or in progress.</p> <p>Describe how the allocation of capacity for maintenance, renewals and enhancements is made, including roles and rights of IMs and applicants, or refer to Chapter 4.2 if the process is the same as allocation of capacity for train paths.</p> <p>Include information on the procedures which shall be followed to request information on the scheduling and the procedures for scheduling planned and unforeseen maintenance work.</p>	
4.6	Non-Usage / Cancellation Rules	<p><i>Directive 2012/34/EU Article 36 and Article 52. (2)</i></p> <p>Describe the deadlines for cancellation of planned train services.</p> <p>Describe the thresholds for non-usage of allocated capacity that trigger loss of access or other penalties.</p> <p>Refer to Section 6 for charges imposed when cancellations are announced too late or not at all.</p>	
4.7	Exceptional Transports and Dangerous Goods	<p>State whether or not the RU needs to notify the IM (or any other body) about its exceptional transport or dangerous goods when applying for train paths.</p> <p>State any deadlines that need to be met.</p>	
4.8	Special Measures To Be Taken in the Event of Disturbance	<p><i>Directive 2012/34/EU Article 54</i></p> <p><i>Regulation 913/2010 Article 17 point 2</i></p>	
4.8.1	Principles	Refer to existing procedures and contractual arrangements.	
4.8.2	Operational Regulation	Describe or refer to existing train regulation policies regarding foreseen and unforeseen problems.	
4.8.3	Foreseen Problems		
4.8.4	Unforeseen Problems		

SECTION 4 – CAPACITY ALLOCATION			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
4.9	Allocation of Capacity for Service Facilities	Allocation principles should be presented for the capacity of service facilities, if these are managed by the IM.	

SECTION 4 – CAPACITY ALLOCATION Recommended Texts	
Number of section / chapter	Recommended text
4.1	This chapter defines the allocation of train paths.
To be defined during the upcoming major review of the NS CS	<p>Recommended text about International Contingency Management (ICM):</p> <p>If large incidents with significant international impact occur, international coordination of incident management is needed.</p> <p>For international disruptions longer than 3 days with a high impact on international traffic, the International Contingency Management applies.</p> <p>Rail Freight Corridors act as facilitators with respect to the disruption management and the communication process. They have developed and published re-routing overviews and operational scenarios together with their member IMs. A reference to the re-routing overview and scenarios can also be found in Book 4, chapter 5 of the Corridor Information Document (see point 1.9 of this NS).</p> <p>Describe here the allocation principles to be applied in case of international disruptions (national rules or the rules described in chapter 3.2 of the ICM Handbook).</p> <p>The RUs are involved according to national incident management procedures and are in charge of communicating train-specific information to their customers.</p> <p>Describe here how the RUs will be informed about the international disruption and how they will be involved in the process of solving the disruption.</p> <p>More details are described in the International Contingency Management Handbook, which can be found at http://www.rne.eu/rneinhalt/uploads/International_Contingency_Management_Handbook_final_v1.5.pdf OR on the RNE website. This handbook describes standards that aim to allow continuation of traffic flows at the highest possible level despite an international disruption and assure transparency of the status of the disruption and its impact on traffic flows for all relevant stakeholders across Europe. It defines disruption management and communication processes that complement national incident management procedures to allow a better international cooperation of IMs and ABs.</p>

SECTION 5 – SERVICES			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
5	SERVICES		
5.1	Introduction	<p><i>Directive 2012/34/EU Article 13</i></p> <p>Refer to the four different groups of services listed in <i>Annex II Directive 2012/34/EU</i> and state whether the IM supplies any services in addition to these.</p>	
5.2	Minimum access package	<p><i>Directive 2012/34/EU , Annex II (1), Description of the services</i></p> <p>The minimum access package shall comprise:</p> <ul style="list-style-type: none"> (a) handling of requests for railway infrastructure capacity; (b) the right to utilise capacity which is granted; (c) use of the railway infrastructure, including track points and junctions; (d) train control including signalling, regulation, dispatching and the communication and provision of information on train movement; (e) use of electrical supply equipment for traction current, where available; (f) all other information required to implement or operate the service for which capacity has been granted. 	
5.3	Access to services facilities and supply of services	<p><i>Directive 2012/34/EU, Annex II (2)</i></p> <p>Product definition – including track access conditions and usage conditions for each of the services listed, also stating whether services are delivered by the IM, or by other suppliers, who <u>must</u> be referred to.</p> <p>For information on location, refer to Section 3 ‘Infrastructure’.</p> <p>For information on charges, refer to Section 6 ‘Charges’.</p> <p>Where service facilities are owned and operated by the IM, supporting information for each facility and service should be outlined in more detail by use of text and maps placed in either annexes and/or online.</p>	
5.3.1	Access to service facilities		

SECTION 5 – SERVICES			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
5.3.1.1	Passenger stations	Passenger stations, their buildings and other facilities, including travel information display and suitable location for ticketing services.	
5.3.1.2	Freight terminals		
5.3.1.3	Marshalling yards and train formation facilities, including shunting facilities		
5.3.1.4	Storage sidings		
5.3.1.5	Maintenance facilities	Maintenance facilities, with the exception of heavy maintenance facilities dedicated to high-speed trains or to other types of rolling stock requiring specific facilities.	
5.3.1.6	Other technical facilities, including cleaning and washing facilities		
5.3.1.7	Maritime and inland port facilities		
5.3.1.8	Relief facilities		
5.3.1.9	Refuelling facilities	Refuelling facilities and supply of fuel in these facilities, charges for which shall be shown on the invoices separately.	
5.3.2	Supply of services in service facilities		
5.3.2.1	Shunting		
5.3.2.2	Other services		
5.4	Additional services	<p><i>Directive 2012/34/EU, Annex II (3)</i></p> <p>Product definition – including usage conditions for each of the services listed, also stating if services are delivered by IM, or by other suppliers, who may be referred to.</p> <p>For information on location, refer to section 3 'Infrastructure'.</p> <p>For information on charges, refer to section 6 'Charges'.</p>	
5.4.1	Traction current		

SECTION 5 – SERVICES			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
5.4.2	Services for trains	Services for trains may include pre-heating, water supply, toilet waste handling, etc.	
5.4.3	Services for exceptional transports and dangerous goods		
5.4.4-5.4.99	Other additional services	If the IM provides additional services other than those listed in the previous sections (5.4.1-5.4.3), these additional services should be listed here under separate sub-numbers.	
5.5	Ancillary services	<i>Directive 2012/34/EU, Annex II (4)</i> Product definition – including usage conditions for each of the services listed, also stating if services are delivered by IM, or by other suppliers, who may be referred to.	
5.5.1	Access to telecommunication network		
5.5.2	Provision of supplementary information		
5.5.3	Technical inspection of rolling stock		
5.5.4	Ticketing services in passenger stations		
5.5.5	Specialized heavy maintenance services	Heavy maintenance services supplied in maintenance facilities dedicated to high-speed trains or to other types of rolling stock requiring specific facilities.	
5.5.6 - 5.5.99	Other ancillary services	If the IM provides ancillary services other than those listed in the previous sections (5.5.1-5.5.5), these additional services should be listed here under separate sub-numbers.	

SECTION 6 – CHARGES			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
6	CHARGES		
6.1	Charging principles	<p><i>Directive 2012/34/EU Article 29 (1), Articles 31-36., and Annex IV (2)</i></p> <p>What is the basis for the IM's charges? Marginal cost, full costs, mark-ups, are there exceptions to the principles, etc.?</p> <p>State to what extent Directive 2012/34/EU Articles 31.4 (scarcity charges), 31.5 (environmental charges), 32 (mark-ups, ETCS), 33 (discounts), 34 (compensation) and 36 (reservation charges) are applicable.</p> <p>If discounts are provided for, the NS shall clearly specify which lines are concerned, which type of trains are entitled to pay the discounted charges, what is the time period during which the discount will be applicable.</p> <p>The list of market segments shall be published here and be reviewed at least every five years.</p> <p><i>Directive 2012/34/EU Article 41 (2), Regulation 2015/10 Article 3 (2), Article 6</i></p> <p>The credit ratings of the applicants shall be mentioned here, if applicable.</p>	
6.2	Charging system	Describe how the components of the system work together.	
6.3	Tariffs	Charging information for train paths and any other services supplied by the IM including discounts, compensation schemes and reservation charges.	
6.3.1	Minimum access package		
6.3.2	Track access to services facilities	State if track access is included in the minimum access package or charged for separately.	
6.3.3	Supply of services referred to in 5.3	If IM supplies services.	
6.3.4	Additional services	If IM supplies services.	
6.3.5	Ancillary services	If IM supplies services.	
6.4	Financial penalties and incentives		

SECTION 6 – CHARGES			
Number of section / chapter	Heading	Implementation guide	Remarks (version control)
6.4.1	Non-usage /cancellation fees and charges	<i>Directive 2012/34/EU Article 36</i>	
6.4.2	Reduction fee for Framework Agreements		
6.4.3	ERTMS Discounts	<i>Directive 2012/34/EU Article 32 (4)</i>	
6.5	Performance scheme	<i>Directive 2012/34/EU Article 35 and Annex IV 5.</i> The basic principles of the performance scheme as listed in point 2 of Annex VI of Directive 2012/34/EU shall apply throughout the network	
6.6	Changes to charges	<i>Directive 2012/34/EU Article 32 (6) and Annex IV (2)</i> Planned changes. Statements about guarantying the charges for the whole timetable year. And if not, how and when the RUs will get the information or how changes are going to be decided and published. State that any modification to the essential elements of the charging system shall be made public at least three months in advance of the deadline for the publication of the network statement. Include information on changes in charges already decided upon or foreseen in the next five years, if available.	
6.7	Billing Arrangements	State who bills customers for the services, the terms and conditions including non-payment, etc.	

	Annexes Numbering	<p>Annexes shall be numbered according to one of the following 2 criteria:</p> <p><u>Option A</u></p> <p>The section number shall be entirely reproduced in the Annex title.</p> <p>Example: Annex 3.3.1.1 Track Typologies; Annex 3.3.1.2 Track Gauges</p> <p><u>Option B</u></p> <p>The section number shall be reproduced in the Annex title, using then a sequential letter.</p> <p>Example: Annex 3.A Track Typologies; Annex 3.B Track Gauges</p>	
--	--------------------------	---	--
